

POWER CLAMP BASIC LINE
POWER CLAMP MINI – ENTRY LEVEL MODEL

HAIMER®
Quality Wins.

Basic Line: concentrating on the basics.

The Basic Line is the economical entrance into inductive shrink fit technology. The power electronics enable problem free shrinking. The mechanical construction of the equipment has, on the other hand, been kept deliberately simple and functional.

The Basic Line is ideal for the price-conscious user, who only wants to shrink a few tools on a daily basis. Its equipment is exclusively designed for operation with standard coils and it is not possible to upgrade.

POWER CLAMP MINI

Standard shrink fit machine for all tools (solid carbide and HSS).

- Single chuck version
- Standard coil
- Power: 10 kW
- Mains voltage: 3x400–480 V, 16 A
- Tools: solid carbide and HSS from Ø 3–16 mm
- 1 base holder included
- 1 chuck support included
- 3 stop discs included

| Technical details | | Order No. |
|------------------------------------|----------------------------------|--------------------------------|
| Power Clamp Mini | | 80.143.00 |
| Mains voltage | 3x400–480 Volt, 16 Ampere, 10 kW | |
| Tools | solid carbide and HSS | |
| Tool diameter | 3–16 mm (1/8" – 5/8") | |
| Maximum length of shrink fit chuck | 350 mm | |
| Dimensions WxDxH | 650x900x600 mm | |
| Weight | 40 kg | |
